

CENTER FOR PROFESSIONAL AND CONTINUING EDUCATION

Overview

Darrell LeMar, Executive Director

Wentworth Hall, Room ADD

(617) 989-4027

lemard@wit.edu (<https://catalog.wit.edu/academic-resources/center-continuing-ed/lemard@wit.edu>)

Lifelong learning is a tradition at Wentworth Institute of Technology. The Center for Professional and Continuing Education is committed to helping students achieve their educational and career goals with part-time evening, weekend, and online courses designed to accommodate their busy lifestyles. The Center for Professional and Continuing Education works directly with corporations, industry experts, and our community in developing specific educational programs that address the needs of our professional students.

Wentworth has a long tradition of offering specialized workforce training and development programs to people in various technical fields. Certificates, training, and seminars provided through the Center for Professional and Continuing Education are rigorous and relevant to the industry. Taught by instructors who are active and experienced in their fields, these courses provide students with the experience and credentials needed to make them competitive in today's job market. Several programs offer skills for licensing and certification. Please view the CPCE website (<http://wit.edu/continuing-ed/>) or call CPCE at (617) 989-4300 for more information.
