

THE SCHOOL OF ENGINEERING

Ali Khabari, Dean

Rubenstein Hall Room 209
(617) 989-4124

Anuja Kamat, Associate Dean

Rubenstein Hall Room 207
(617) 989-4031

Gautham Das, Program Director - Biological Engineering, Biomedical Engineering and Civil Engineering

CEIS Room 405
(617) 989-4418

Douglas Dow, Program Director - Electromechanical Engineering and Mechanical Engineering

TBD
(617) 989-4134

Afsaneh Ghanavati, Program Director - Computer Engineering, Electrical Engineering and Engineering

Dobbs Hall Room 204
(617) 989-4445

Vision

Our students change the world.

Mission

To foster the education of competent, creative, entrepreneurial engineering students by dedicated faculty in innovative programs.

Education Model

Our students develop a strong technical foundation, nurture their creativity and problem-solving skills on real-world projects, sharpen innovation and entrepreneurship skills in a collaborative, diverse environment, and complete at least two required semesters of cooperative work experience.

Laboratory Experience

Our students apply the theory of their discipline in state-of-the-art laboratories throughout their time at the University.

Global Impact

Our students develop competencies necessary to impact business, academia, and government in engineering for the betterment of society with a broad global perspective.
