

ENVIRONMENTAL HEALTH AND SAFETY

Wentworth is committed to providing a safe and healthy environment for our students, employees, and the greater community and reducing our environmental impact through the implementation of an EH&S Program, which:

Defines roles and responsibilities within the EH&S Program.

Assesses the risks associated with operations performed at the university.

Implements the hierarchy of controls to prevent exposure to hazards and environmental impacts.

Complies with applicable EH&S regulations and standards of care.

Provides EH&S training.

Promotes sustainability.

Governs through committees.

For more information please see the complete Policy on Environmental Health & Safety (<https://wit.edu/about/policies/environmental-health-safety/>).
